W-Band High Power water-cooled Variable Attenuator

Model series: VEB2080A

attenuation range = 1.6 dB (min) - 24 dB (max)

center frequency = 94.0 GHz

bandwidth = +/- 200 MHz

input/output VSWR = 1.2:1 max

power handling capability = 150 W

coolant flow = 3 litres/min. minimum

coolant pressure = 60 psi max.
