

CPI International to Announce First Quarter Fiscal 2012 Financial Results

CPI International to Announce First Quarter Fiscal 2012 Financial Results

PALO ALTO, Calif. - February 1, 2012 - On Thursday, February 9, 2012, CPI International Holding Corp., the parent company of CPI International, Inc., expects to file its Form 10-Q for the first fiscal quarter ended December 30, 2011 with the Securities and Exchange Commission and to issue a press release regarding its results for the quarter. At 11 a.m. (EST) on Friday, February 10, 2012, CPI International will hold a telephonic conference call in conjunction with this release that will be broadcast live simultaneously over the Internet on the company's Web site. Joe Caldarelli, chief executive officer of CPI International, and Joel Littman, chief financial officer, will host the call. Topics discussed on the call will include the company's recent financial performance and the status of its business.

To participate in the conference call, please dial (800) 649-5127, or (253) 237-1144 for international callers, enter conference ID 47307215 and ask for the CPI International First Quarter Fiscal 2012 Financial Results Conference Call.

A replay of the call will be available until Friday, February 17, 2012. To access the replay, please dial (855) 859-2056, or (404) 537-3406 for international callers, and enter participant pass code 47307215.

To access the call via the Web, please visit <http://investor.cpii.com> on the morning of the call and click "Events." Interested parties should allow extra time prior to the call to visit the site and download the streaming media software required to listen to the Internet broadcast. After the live call, the online archive of the broadcast will remain available on the site for one year.

About CPI International Holding Corp.

CPI International Holding Corp., headquartered in Palo Alto, California, is the parent company of CPI International, Inc., which is the parent company of Communications & Power Industries LLC, a leading provider of microwave, radio frequency, power and control solutions for critical defense, communications, medical, scientific and other applications. Communications & Power Industries LLC develops, manufactures and distributes products used to generate, amplify, transmit and receive high-power/high-frequency microwave and radio frequency signals and/or provide power and control for various applications. End-use applications of these systems include the transmission of radar signals for navigation and location; transmission of deception signals for electronic countermeasures; transmission and amplification of voice, data and video signals for broadcasting, Internet and other types of commercial and military communications; providing power and control for medical diagnostic imaging; and generating microwave energy for radiation therapy in the treatment of cancer and for various industrial and scientific applications.
