News Release

For Immediate Release:

COMMUNICATIONS & POWER INDUSTRIES AWARDED $4.5 MILLION TO PROVIDE SUPERLINEAR® HIGH-POWER AMPLIFIERS FOR SHIPBOARD SATCOM PROGRAM

PALO ALTO, Calif. – January 19, 2016 – A U.S. military systems integrator has awarded the Satcom Division of Communications & Power Industries LLC (CPI) an order totaling more than $4.5 million to provide high-power, X-band traveling wave tube amplifiers (TWTAs) and related products for a significant military communications program. Under this follow-on contract, CPI’s X-band SuperLinear® TWTAs will be used in a shipboard satellite communications program for the U.S. military that CPI has supported for a number of years.

“CPI’s X-band satcom amplifiers continue to be selected for this program due to our proven ability to meet the U.S. military’s stringent product requirements for long life and high reliability,” said Andy Tafler, president of CPI Satcom Division. “Our innovative and compact high-power SuperLinear amplifiers are extremely efficient, reliable and capable of operating in adverse environmental conditions, including shipboard environments.”

CPI is one of the largest global manufacturers of high-power communications amplifiers for satellite uplink applications, with the broadest product line under one umbrella, including solid-state amplifiers for low-to-medium power applications, TWTAs, and klystron power amplifiers for high-power applications. These products are used in fixed and mobile gateways in support of military and commercial communications applications around the world.

About Communications & Power Industries LLC

Communications & Power Industries LLC (CPI), headquartered in Palo Alto, California, is a subsidiary of CPI International Holding Corp. and CPI International, Inc. CPI develops, manufactures and globally distributes components and subsystems used in the generation, amplification, transmission and reception of microwave signals for a wide variety of systems including radar, electronic warfare and communications (satellite and point-to-point) systems for military and commercial applications, specialty products for medical diagnostic imaging and the treatment of cancer, as well as microwave and RF energy generating products for various industrial and scientific pursuits.
Certain statements included above constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements provide our current expectations, beliefs or forecasts of future events. These statements are not guarantees of future performance. Forward-looking statements are subject to known and unknown risks and uncertainties, which could cause actual events or results to differ materially from the results projected, expected or implied by these forward-looking statements. These factors include, but are not limited to, competition in our end markets; our significant amount of debt; changes or reductions in the U.S. defense budget; currency fluctuations; goodwill impairment considerations; customer cancellations of sales contracts; U.S. Government contracts; export restrictions and other laws and regulations; international laws; changes in technology; the impact of unexpected costs; the impact of a general slowdown in the global economy; the impact of environmental laws and regulations; inability to obtain raw materials and components; and the impact of unexpected results of, or issues in connection with, dispositions and acquisitions. These and other risks are described in more detail in our periodic filings with the Securities and Exchange Commission. All future written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. New risks and uncertainties arise from time to time, and it is impossible for us to predict these events or how they may affect us. We undertake no duty or obligation to (i) publicly revise any forward-looking statement to reflect circumstances or events occurring after the date hereof, (ii) to reflect the occurrence of unanticipated events or changes in our expectations or (iii) to publicly correct or update any forward-looking statement if CPI becomes aware that such statement is not likely to be achieved.
